

Domaine Jean-Pierre Sève

Four generations of Sèves. An evolution in excellence.

Just like a musician, I create variations using the different notes that distinguish each of my terroirs as well as my own sensitivity, thus producing a most aromatic and harmonious symphony capable of awakening all your senses and inciting you to share this hearty pleasure. Jean-Pierre Sève

Domaine Jean-Pierre Sève, makes it's home in the magnificent and prestigious wine-making village of Solutré-Pouilly, 10 kilometres away from Macon.

Pierre Marie Sève was born in 1875 and was the first in the family to grow and care for the vines of this estate. Then came Francis Sève, who cultivated and expanded the estate. Afterwards, Jean-Pierre's father, Roger Sève, came along: he replanted many plots and started selling wine in bottles.

Today, Jean-Pierre cultivates the estate with his wife Sylvie. Their aim is to constantly improve quality while perpetuating their family know-how.

The estate is located on the heights of the village of Solutré which offers a beautiful view of the Saône valley.

The estate is 7.40 hectares (18.50 acres) and has one grape variety: CHARDONNAY.

Producing affordable POUILLY-FUISSÉ and MACON-SOLUTRÉ wines that over-deliver on price to quality!
