

Lagar da Condessa & Kentia

Rias Baixas, Spain

Lagar da Condessa is the project held by Gil Family in the D.O Rías Baixas, in Galicia, with place in Val do Salnés. The winery is located in Arcos da Condessa, with a great winery tradition, in the municipality of Caldas de Reis where the thermal water is linked to the vineyards since long time ago. The winery, built in granite, as the typical Pazos from Galicia, and surrounded by vineyards, has the most modern technology. The winemaking whole process is aimed at extracting the best qualities of the grape. The harvesting and processing is manual combining the traditional method with the latest technology and respectful with the Albariño wine grape variety of this region and with all of our wines. The first crop at this winery corresponds to the year 2013. The technical direction is managed by David Landin.

With an orientation to the south west, its allowed an optimum ripening of the grapes and their ventilation. The Sandy and granitic soils allow a perfect water drainage coming from the frequent rains in this area. The vineyards of the Albariño variety, in these conditions, raise the perfect grapes for winemaking marketed by Lagar da Condessa

Wines produced: Lagar da Condessa Albarino, O Fillo da Condessa Albarino, Kentia Albarino
