D.O.	Malaga
Vinification	The vines of Muscat de Alexandria are planted in slate soils and will yield a sweet extraordinary wine in 2006.

Wines & Tasting Notes

Botani 2007, Jorge Ordoñez S.L.

Sierras de Malaga

100% Moscatel

Botani, the only dry wine of our winery, is made with a careful selection of the best sweet Moscatel de Alejandria grown in the vineyards in the north facing slopes of the mountains of Almarchar. The vines are pruned in the vaso system- The soil is comprised of slate and is very poor in organic content and is subjected to organic practices.

The grapes are hand harvested by the end of July and go through a selection table before pressing. This wine is fermented in 70% stainless steel and 30% French oak barrels.

Botani owes its uniqueness to the rigor applied to the selection of the grapes and the winemaking processes.

Production: 2,000 cases
